

ExxonMobil Awards Contract to Halliburton for West Qurna (Phase 1) Field in Southern Iraq

October 14, 2010

HOUSTON & DUBAI, United Arab Emirates, Oct 14, 2010 (BUSINESS WIRE) -- Halliburton (NYSE: HAL) has been awarded a wellwork integrated services contract by ExxonMobil Iraq Ltd. for refurbishment of wells in the West Qurna (Phase 1) field in southern Iraq.

Halliburton will provide on-site logistics and technical support for both rigless and rig-assisted workovers. Other services provided by Halliburton include provision of a workover rig, coiled tubing, slickline services, logging, production enhancement and well testing.

"We believe Halliburton's strong presence in Iraq, coupled with our technical leadership, was a factor in securing this contract from ExxonMobil Iraq Limited," said Dave Lesar, Halliburton's Chairman, President and CEO. "We're pleased to see our investment and commitment to provide services within Iraq being recognized by companies such as ExxonMobil and its West Qurna (Phase 1) project co-venturers."

About Halliburton

Founded in 1919, Halliburton is one of the world's largest providers of products and services to the energy industry. With more than 55,000 employees in approximately 70 countries, the company serves the upstream oil and gas industry throughout the lifecycle of the reservoir - from locating hydrocarbons and managing geological data, to drilling and formation evaluation, well construction and completion, and optimizing production through the life of the field. Visit the company's website at www.halliburton.com.
