

Halliburton Leads Dow Jones Sustainability Indices for Fifth Consecutive Year

September 16, 2014

HOUSTON--(BUSINESS WIRE)--Sep. 16, 2014-- For the fifth consecutive year, the Dow Jones Sustainability Indices (DJSI) identify Halliburton (NYSE: HAL) as a leader in corporate sustainability as the company exceeded industry averages in the Economic, Environmental and Social Performance categories.

Halliburton's continued commitment to advancing its global vision and goals for corporate responsibility and sustainability earned high rankings in several industry categories, and the company received industry best scores for:

- Codes of Conduct, Compliance, Corruption and Bribery
- Releases to the Environment
- Human Capital Development

Halliburton received a perfect score in the "Releases to the Environment" category.

"The responsible work and actions of our teams each and every day keep Halliburton at the forefront of corporate sustainability," said Jeff Miller, Halliburton President and Chief Health, Safety and Environment Officer. "We've set the bar high with our Guiding Principles of Sustainability, which serve as the foundation of our business and represent the very essence of our culture. I commend our employees for living out those principles."

Corporate responsibility and sustainability are at the core of Halliburton's long-term success and embedded throughout the business. For details about Halliburton's sustainability efforts, please visit <http://www.halliburton.com/sustainability>.

DJSI scores are based on comprehensive assessments that evaluate the overall performance of leading sustainability-driven companies worldwide. The information provides asset managers with reliable and objective benchmarks to manage sustainability portfolios.

ABOUT HALLIBURTON

Founded in 1919, Halliburton is one of the world's largest providers of products and services to the energy industry. With more than 80,000 employees, representing 140 nationalities in approximately 80 countries, the company serves the upstream oil and gas industry throughout the lifecycle of the reservoir – from locating hydrocarbons and managing geological data, to drilling and formation evaluation, well construction and completion, and optimizing production through the life of the field. Visit the company's website at www.halliburton.com. Connect with Halliburton on [Facebook](#), [Twitter](#), [LinkedIn](#), [Oilpro](#) and [YouTube](#).
