

Halliburton Announces the Early Tender Results and Early Settlement Date of Its Pending Cash Tender Offers

March 4, 2020

HOUSTON--(BUSINESS WIRE)-- Halliburton Company (NYSE: HAL) announced today that, pursuant to its previously-announced cash tender offers (each, individually with respect to a series of Notes, a "Tender Offer" with respect to such series, and collectively, the "Tender Offers") to purchase up to \$1,500,000,000 aggregate principal amount (the "Maximum Tender Offer Amount") of its senior notes as identified in the table below (collectively, the "Notes"), \$1,821,337,000 in aggregate principal amount of Notes were validly tendered and not validly withdrawn at or prior to 5:00 p.m., New York City time, March 3, 2020 (the "Early Tender Deadline"). Halliburton also announced that it has elected to have an early settlement date for the Tender Offers, anticipated to be on March 5, 2020 (the "Early Settlement Date"), for Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline and accepted for purchase.

The Tender Offers commenced on February 19, 2020 and are scheduled to expire at 11:59 p.m., New York City time, on March 17, 2020, unless extended by Halliburton or earlier terminated with respect to any Tender Offer (such date and time, as it may be extended or earlier terminated, the "Expiration Time"). However, because the aggregate principal amount of the Notes validly tendered and not validly withdrawn as of the Early Tender Deadline exceeds the Maximum Tender Offer Amount, no tenders of Notes submitted after the Early Tender Deadline will be accepted for purchase in the Tender Offers. The terms and conditions of the Tender Offers are described in the Offer to Purchase, dated February 19, 2020 (the "Offer to Purchase"), and remain unchanged.

The following table sets forth certain information regarding the Notes and the Tender Offers, including the aggregate principal amount of each series of Notes that was validly tendered and not validly withdrawn at or prior to the Early Tender Deadline:

Title of Notes	CUSIP Number	Principal Amount Outstanding Prior to the Offers	Tender Cap ⁽¹⁾	Acceptance Priority Level	Aggregate Principal Amount Tendered as of the Early Tender Deadline	Principal Amount Accepted for Purchase	Proration Factor ⁽²⁾
3.500% Senior Notes due 2023	406216BD2	\$1,100,000,000	\$500,000,000	1	\$527,679,000	\$499,939,000	94.80%
3.800% Senior Notes due 2025	406216BG5	\$2,000,000,000	\$1,000,000,000	2	\$1,065,350,000	\$999,996,000	93.89%
3.250% Senior Notes due 2021	406216AZ4	\$500,000,000	\$100,000,000	3	\$228,308,000	\$0	N/A

(1) The "Tender Cap" for each series represents the maximum aggregate principal amount of the applicable series of Notes that will be accepted for purchase.

(2) The proration factor has been rounded to the nearest hundredth of a percentage point.

The amount of each series of Notes accepted for purchase was determined pursuant to the terms and conditions of the Tender Offers as set forth in the Offer to Purchase.

Because the principal amount of Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline exceeded the Maximum Tender Offer Amount, Halliburton will accept such Notes for purchase subject to the Acceptance Priority Levels, Tender Caps and proration factors set forth in the table above. In addition, because the principal amount of Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline exceeded the Maximum Tender Offer Amount, Halliburton will not accept any Notes tendered after the Early Tender Deadline. Notes not accepted for purchase will be promptly credited to the account of the registered holder of such Notes with The Depository Trust Company in accordance with the Offer to Purchase.

The withdrawal deadline for the Tender Offers was 5:00 p.m., New York City time, on March 3, 2020 and has not been extended (the "Withdrawal Deadline"). Accordingly, previously tendered Notes may not be withdrawn, subject to applicable law.

The consideration paid in the Tender Offers for Notes validly tendered and not validly withdrawn at or prior to the Early Tender Deadline and accepted for purchase will be determined in the manner described in the Offer to Purchase by reference to the applicable fixed spread specified for such series of Notes over the yield (the "Reference Yield") based on the bid side price of the applicable U.S. Treasury Security (the "Reference U.S. Treasury Security") specified for each series of Notes, and includes an early tender premium of \$30 per \$1,000 principal amount of such Notes, plus accrued and unpaid interest, rounded to the nearest cent, from the last interest payment date with respect to such Notes to, but not including, the Early Settlement Date. The Reference Yield for each series of Notes will be calculated by the Lead Dealer Managers (as defined below) at 10:00 a.m., New York City time, today, in accordance with standard market practice, subject to certain exceptions set forth in the Offer to Purchase.

Halliburton's obligation to accept for payment and to pay for any of the Notes validly tendered in the Tender Offers is not subject to any minimum principal amount of Notes in the aggregate or of any series being tendered, but is subject to the satisfaction or waiver of a number of conditions described in the Offer to Purchase. The financing condition described in the Offer to Purchase was satisfied on March 3, 2020, upon Halliburton's consummation of an offering of senior debt securities in an aggregate principal amount of \$1,000,000,000. Halliburton reserves the right, subject to applicable law, to amend, extend or terminate any of the Tender Offers at any time in its sole discretion.

Halliburton has retained BofA Securities, Inc., Deutsche Bank Securities Inc., J.P.
