## Landmark Opens New Anchorage Support Office; Customers Now Have Access to Local Support

January 8, 2002

DALLAS, Jan 8, 2002 (BUSINESS WIRE) -- Landmark Graphics Corp., a wholly owned business unit of Halliburton Company (NYSE:HAL), today announced that it has opened a new technical assistance support office in Anchorage, Alaska. The new office, located at 310 K Street, Suite 200, provides customers with access to Anchorage-based support professionals across Landmark's major product lines.

Creation of this local support office fulfills the needs of our extensive customer base in Alaska and is another indication of Landmark's commitment to providing a world-class global support network. The Anchorage technical assistance support office will be broadly integrated within the SSC/SCP Certified North American Support organization and further complemented by Landmark's global SSC/SCP Certified support teams.

"Alaska is an exciting area where our customers continue to be in the forefront of applying real-time, advanced technologies to maximize reserves and production while decreasing lifting costs," said John Gibson, president and CEO of Landmark. "Opening the Anchorage office allows us to work closer with and better serve our expanding client base in the Anchorage area."

In addition to having access to local support resources, Anchorage customers will also have the benefit of engaging local Landmark professionals for consulting services, if required.

Al Escher, Landmark's executive vice president, Operations, added, "The new support office we've opened in Anchorage is a clear indication of Landmark's commitment to provide unparalleled service to its customers. We are looking forward to enhancing our relationships within the Anchorage oil and gas community."

Landmark is the leading supplier of software and services for the upstream oil and gas industry. The company's software solutions span exploration, production, drilling, business decision analysis and data management.
