Additional information relating to the Senior Notes due 2016, the Senior Notes due 2018, the Senior Notes due 2023 and the Senior Notes due 2043 (collectively, the “Senior Notes”):

Estimated net proceeds to Halliburton Company from the offering of the Senior Notes will be approximately \$2.971 billion, after deducting underwriting discounts and estimated expenses relating to the offering.

After giving effect to the issuance of the Senior Notes, Halliburton Company’s total long-term debt outstanding as of June 30, 2013 would have been \$7.820 billion.

* It is expected that delivery of the senior notes will be made against payment therefor on or about August 5, 2013, which is the fifth business day following the date hereof (such settlement cycle being referred to as “T+5”). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of pricing or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+5, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement.

** A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.
