HALLIBURTON COMPANY NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Management Representation

The Company employs accounting policies that are in accordance with generally accepted accounting principles in the United States. The preparation of financial statements in conformity with generally accepted accounting principles requires Company management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Ultimate results could differ from those estimates.

The accompanying unaudited condensed consolidated financial statements present information in accordance with generally accepted accounting principles for interim financial information and the instructions to Form 10-Q and applicable rules of Regulation S-X. Accordingly, they do not include all information or footnotes required by generally accepted accounting principles for complete financial statements and should be read in conjunction with the Company's 1996 Annual Report on Form 10-K.

In the opinion of the Company, the financial statements include all adjustments necessary to present fairly the Company's financial position as of March 31, 1997, and the results of its operations and cash flows for the three months ended March 31, 1997 and 1996. The results of operations for the three months ended March 31, 1997 and 1996 may not be indicative of results for the full year. Certain prior year amounts have been reclassified to conform with the current year presentation.

Note 2. Inventories

	March 31 1997		De	cember 31 1996		
	(Millions of dollars)					
Sales items Supplies and parts	\$	92.5 164.5	\$	104.3 136.3		
Work in process		40.3		30.4		
Raw materials		23.3 ======	===	21.2		
Total	\$	320.6	\$ ===	292.2		

About forty percent of all sales items are valued using the last-in, first-out (LIFO) method. If the average cost method had been in use for inventories on the LIFO basis, total inventories would have been about \$12.6 million and \$13.0 million higher than reported at March 31, 1997, and December 31, 1996, respectively.

Note 3. General and Administrative Expenses

General and administrative expenses were \$51.0 million and \$52.1 million for the three months ended March 31, 1997 and 1996, respectively.

Note 4. Income Per Share

Income per share amounts are based upon the average number of common and common share equivalents outstanding. Common share equivalents included in the computation represent shares issuable upon assumed exercise of stock options which have a dilutive effect.

During February, 1997, the Financial Accounting Standards Board approved Statement of Financial Accounting Standard No. 128, "Earnings per share", effective for financial statements for both interim and annual periods ending after December 15, 1997. The Company plans to adopt the new standard at December 31, 1997 and does not believe the effect of adoption will be material.

Note 5. Related Companies

The Company conducts some operations through various joint ventures, which are in partnership, corporate and other business forms, which are principally accounted for using the equity method. Included in the Company's revenues for the three months ended March 31, 1997 and 1996 are equity in income of related companies of \$20.4 million and \$21.1 million, respectively.

Note 6. Commitments and Contingencies

The Company is involved as a potentially responsible party (PRP) in remedial activities to clean up various "Superfund" sites under applicable Federal law which imposes joint and several liability, if the harm is indivisible, on certain persons without regard to fault, the legality of the original disposal, or ownership of the site. Although it is very difficult to quantify the potential impact of compliance with environmental protection laws, management of the Company believes that any liability of the Company with respect to all but one of such sites will not have a material adverse effect on the results of operations of the Company. With respect to a site in Jasper County, Missouri (Jasper County Superfund Site), sufficient information has not been developed to permit management to make such a determination and management believes the process of determining the nature and extent of remediation at this site and the total costs thereof will be lengthy. Brown & Root, Inc. (Brown & Root), a subsidiary of the Company, has been named as a PRP with respect to the Jasper County Superfund Site by the Environmental Protection Agency (EPA). The Jasper County Superfund Site includes areas of mining activity that occurred from the 1800's through the mid 1950's in the southwestern portion of Missouri. The site contains lead and zinc mine tailings produced from mining activity. Brown & Root is one of nine participating PRPs which have agreed to perform a Remedial Investigation/Feasibility Study (RI/FS), which, due to various delays, is not expected to be completed until the third quarter of 1998. Although the entire Jasper County Superfund Site comprises 237 square miles as listed on the National Priorities List, in the RI/FS scope of work, the EPA has only identified seven areas, or subsites, within this area that need to be studied and then possibly remediated by the PRPs. Additionally, the Administrative Order on Consent for the RI/FS only requires Brown & Root to perform RI/FS work at one of the subsites within the site, the Neck/Alba subsite, which only comprises 3.95 square miles. Brown & Root's share of the cost of such a study is not expected to be material. At the present time Brown & Root cannot determine the extent of its liability, if any, for remediation costs on any reasonably practicable basis.

The Company and its subsidiaries are parties to various other legal proceedings. Although the ultimate dispositions of such proceedings are not presently determinable, in the opinion of the Company any liability that may ensue will not be material in relation to the consolidated financial position and results of operations of the Company.

Note 7. Acquisitions:

On October 4, 1996, the Company completed the acquisition of Landmark Graphics Corporation (Landmark) through the merger of Landmark with and into a subsidiary of the Company, the conversion of the outstanding Landmark common stock into an aggregate of approximately 10.2 million shares of Common Stock of the Company and the assumption by the Company of the outstanding Landmark stock options. The merger qualified as a tax free exchange and was accounted for using the "pooling of interests" method of accounting for business combinations. Accordingly, the Company's financial statements for the three months ended March 31, 1996 have been restated to include the results of Landmark.

Prior to the merger, Landmark had a fiscal year-end of June 30. Landmark's results have been restated to conform with Halliburton Company's calendar year-end. Combined and separate results of Halliburton and Landmark for the three months ended March 31, 1996 were as follows:

Three Months

	Ended M	arch 31, 1996 ns of dollars)
Revenues: Halliburton Landmark	Ş	1,661.4 43.3
Combined	\$ ===	1,704.7
Net Income: Halliburton Landmark	\$	51.5 (6.0)
Combined	 \$ ===	45.5

During March 1997, the Devonport management consortium, Devonport Management Limited (DML), which is 51% owned by the Company, completed the acquisition of Devonport Royal Dockyard plc, which owns and operates the Government of the United Kingdom's Royal Dockyard in Plymouth, England, for approximately \$64.9 million. Concurrent with the acquisition of the Royal Dockyard, the Company's ownership interest in DML increased from 30% to 51% and DML borrowed \$56.3 million under term loans (the Loans) bearing interest at approximately LIBOR plus 0.75% payable in semi-annual installments through March 2004. Pursuant to certain terms of the Loans, the Company is required to provide initially a compensating balance of \$28.7 million which is restricted as to use by the Company. The compensating balance amount decreases in equal installments over the term of the Loans and earns interest at a rate equal to that of the Loans. The compensating balance is included in other assets in the condensed consolidated balance sheet.

During April 1997, the Company completed its acquisition of the outstanding common stock of OGC International plc (OGC) for approximately \$118.3 million. OGC is engaged in providing a variety of engineering, operations and maintenance services, primarily to the North Sea oil and gas production industry.

Note 8. Special Charges:

During September 1996, the Company recorded special charges of \$65.3 million, which included provisions of \$41.0 million to terminate approximately one thousand employees related to reorganization efforts by the Engineering and Construction Group and plans to combine various administrative support functions into combined shared services for the Company; and \$20.2 million to restructure certain Engineering and Construction Group businesses, provide for excess lease space and other items. Approximately \$10.0 million has been charged to these reserves for employee related costs and approximately \$7.8 million has been charged in connection with excess leases and other items. Approximately 630 employees have left the Company in connection with various reorganization initiatives.

During March 1996, Landmark recorded special charges of \$12.2 million (\$8.7 million after tax) for the write-off of in-process research and development activities acquired in connection with the purchase by Landmark of certain assets and the assumption of certain liabilities of Western Atlas International, Inc. and the write-off of related redundant assets and activities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

BUSINESS ENVIRONMENT

The Company operates in over 100 countries around the world to provide a variety of energy services and engineering and construction services to energy, industrial and governmental customers. Operations in some countries may be affected by unsettled political conditions, expropriation or other governmental actions, exchange controls and currency devaluations. The Company believes the geographic diversification of its business activities reduces the risk that loss of its operations in any one country would be material to its consolidated results of operations. However, United States law imposes a variety of trade sanctions restricting the ability of the Company, and in some cases its foreign subsidiaries, to conduct business in some countries where there are markets for the Company's goods and services. In the future, certain of these trade sanctions may adversely affect the ability of the Company to conduct business with foreign customers having activities in certain countries such as Cuba, Iran or Libya which are targeted by the United States, including restrictions on the Company's ability to do business with such customers in unrelated countries. From time to time, discussions occur in the United States Congress and Administration concerning the imposition of additional trade sanctions which could affect several other countries which are important markets for the Company. Existing or new restrictions which impair the ability of the Company and/or its customers to conduct business in these countries could adversely affect the results of the Company's operations in some future period; however, recently imposed trade sanctions affecting Myanmar are not expected to have a material adverse affect on the Company.

RESULTS OF OPERATIONS

Revenues

Consolidated revenues increased 11% to \$1,897.5 million in the first quarter of 1997 compared with \$1,704.7 million in the same quarter of the prior year. Approximately 55% of the Company's consolidated revenues were derived from international activities in the first quarter of 1997 compared to 53% in the first quarter of 1996. Consolidated international revenues increased 16% in the first quarter of 1997 over the first quarter of 1996.

Energy Group revenues increased by 29% compared with a 12% increase in drilling activity as measured by the worldwide rotary rig count for the same quarter of the prior year. United States revenues increased 31% compared to an increase in the United States rig count of 21% over the same quarter of the prior year.

Engineering and Construction Group revenues decreased 7% to \$777.2 million compared with \$833.2 million in the same quarter of the prior year. Lower activity under the Engineering and Construction Group's contract to provide technical and logistical support for military peacekeeping operations in Bosnia reduced first quarter revenues by approximately \$155.1 million compared to the same quarter of the prior year. This decrease was offset in part by increased revenue from civil services provided in Europe.

Operating income

Consolidated operating income increased 94% to \$138.7 million for the three months ended March 31, 1997 from \$71.6 million for the three months ended March 31, 1996. Consolidated operating income for the prior year quarter included special charges of \$12.2 million for the write-off of in-process research and development activities acquired in connection with the purchase by Landmark of certain assets and the assumption of certain liabilities of Western Atlas International, Inc. and the write-off of related redundant assets and activities. Excluding special charges in the first quarter of the prior year, operating income for the three months ended March 31, 1997 increased 66%. Approximately 64% of the Company's consolidated operating income was derived from international activities in the first quarter of 1997 compared to 56% in the first quarter of 1996.

Energy Group operating income increased 49% to \$117.2 million in the first quarter of 1997 compared with \$78.9 million in the same quarter of the prior year. The operating income margin for the first quarter of 1997 was 10.5% compared with 9.1% for the first quarter of 1996. The increase in operating income was due primarily to higher pressure pumping activity and margins for Halliburton Energy Services in North America and the Middle East and Brown & Root Energy Services' projects in the North Sea. Engineering and Construction Group operating income increased 115% to \$29.4 million compared with \$13.7 million for the same quarter in the prior year. Operating income margins were 3.8% and 1.6% for the three months ended March 31, 1997 and 1996, respectively. The increase in operating income reflects improved performance by civil services provided in Europe as well as improved engineering, procurement and construction activities.

Nonoperating Items

Interest expense increased to \$6.1 million in the first quarter of 1997 compared with \$5.0 million during the same quarter of the prior year due primarily to the Company's issuance of \$125.0 million of 6.75% notes on February 6, 1997.

Interest income increased to \$4.4 million in the first quarter of 1997 compared with \$3.8 million during the same quarter of the prior year due to slightly higher levels of invested cash during the period.

The effective income tax rate increased to 38% during the first quarter of 1997 from 37% for the first quarter of 1996 due primarily to increased profitability during the current quarter and the utilization of foreign net operating losses during the prior year.

Minority interest in net income of subsidiaries was \$2.9 million for the first quarter of 1997 compared to minority interest in net losses of subsidiaries of \$0.1 million for the first quarter of 1996. The majority of this increase reflects the consolidation of DML's results for the first quarter of 1997 in connection with the Company increasing its ownership in DML from 30% to 51% during March 1997.

Net income

Net income from continuing operations in the first quarter of 1997 increased 82% to 83.0 million, or 0.65 per share, compared with 45.5 million, or 0.36 per share, in the same quarter of the prior year.

LIQUIDITY AND CAPITAL RESOURCES

The Company ended the first quarter of 1997 with cash and cash equivalents of \$85.4 million, a decrease of \$128.2 million from the end of 1996.

Operating activities

Cash flows used in operating activities were \$88.0 million in the first three months of 1997, as compared to \$148.5 million in the first three months of 1996. The primary use of operating cash flow was to fund working capital requirements related to increased revenues from the Energy Group and for Engineering and Construction Group projects.

Investing Activities

Capital expenditures were \$112.2 million for the first quarter of 1997, an increase of 137% over the same quarter of the prior year. The increase in capital spending primarily reflects investments in equipment and infrastructure for the Energy Group and the acquisition of the Royal Dockyard by DML, net of related borrowings.

During March 1997, DML, which is 51% owned by the Company, completed the acquisition of Devonport Royal Dockyard plc, which owns and operates the Government of the United Kingdom's Royal Dockyard in Plymouth, England, for approximately \$64.9 million. Concurrent with the acquisition of the Royal Dockyard, the Company's ownership interest in DML increased from 30% to 51% and DML borrowed \$56.3 million under term loans (the Loans) bearing interest at approximately LIBOR plus 0.75% payable in semi-annual installments through March 2004. Pursuant to certain terms of the Loans, the Company is required to provide initially a compensating balance of \$28.7 million which is restricted as to use by the Company. The compensating balance amount decreases in equal installments over the term of the Loans and earns interest at a rate equal to that of the Loans.

During April 1997, the Company completed its acquisition of the outstanding common stock of OGC International plc (OGC) for approximately \$118.3 million. OGC is engaged in providing a variety of engineering, operations and maintenance services, primarily to the North Sea oil and gas production industry.

Financing activities

Cash flows from financing activities were \$96.9 million in the first three months of 1997 compared to \$115.3 million in the first three months of 1996. The Company repaid \$45.0 million in short-term funds consisting of commercial paper and bank loans in the first three months of 1997.

On February 6, 1997, the Company issued \$125.0 million principal amount of 6.75% notes (the Notes) due February 1, 2027 under the Company's medium term note program. The Notes were priced at 99.78%, to yield 6.78% to maturity. Each holder of the notes has the right to require the Company to repay such holder's notes, in whole or in part, on February 1, 2007. The Company used the net proceeds from the sale of the Notes for general corporate purposes which included repayment of debt, acquisitions, and loans to and/or investments in subsidiaries of the Company for working capital, repayment of debt and capital expenditures.

On May 7, 1997, the Company issued an additional \$50.0 million principal amount of 7.53 % notes (the May Notes) at par value due May 12, 2017 under the Company's medium term note program. The Company intends to use the net proceeds from the sale of the May Notes for general corporate purposes.

The Company believes it has sufficient borrowing capacity to fund its working capital requirements and investing activities. As of May 7, 1997, the Company had approximately \$375.0 million of credit facilities with various commercial banks, of which \$100.0 million was committed. The Company also has the ability to borrow, if necessary, additional funds of \$125.0 million under its \$300.0 million medium term note program.

ENVIRONMENTAL MATTERS

The Company is involved as a potentially responsible party in remedial activities to clean up various "Superfund" sites under applicable Federal law which imposes joint and several liability, if the harm is indivisible, on certain persons without regard to fault, the legality of the original disposal, or ownership of the site. Although it is very difficult to quantify the potential impact of compliance with environmental protection laws, management of the Company believes that any liability of the Company with respect to all but one of such sites will not have a material adverse effect on the results of operations of the Company. See Note 6 to the financial statements for additional information on the one site.

FORWARD LOOKING INFORMATION

In accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the Company notes that the statements in this Form 10-Q and elsewhere, which are forward looking and which provide other than historical information, involve risks and uncertainties that may impact the Company's actual results of operations. The Company continues to face many risks and uncertainties including: unsettled political conditions, war, civil unrest, currency controls and governmental actions in countries of operation; trade restrictions and economic embargoes; environmental laws, including those that require emission performance standards for new and existing facilities; the magnitude of governmental spending for military and logistical support of the type provided by the Company; operations in higher risk countries; technological and structural changes in the industries served by the Company; changes in the price of oil and natural gas; changes in capital spending by customers in the hydrocarbon industry for exploration, development, production, processing, refining and pipeline delivery networks; changes in capital spending by customers in the wood pulp and paper industries for plants and equipment; and changes in capital spending by governments for infrastructure. In addition, future trends for revenues and profitability remain difficult to predict in the industries served by the Company.

Halliburton Company, a Delaware corporation (the "Company," which term includes any successor corporation under the Indenture hereinafter referenced), for value received, hereby promises to pay to CEDE & Co., or registered assigns,

1

principal sum of Fifty Million and no one-hundredths Dollar the (\$50,000,000.00), on the Stated Maturity Date specified above (or any Redemption Date or Repayment Date, each as defined on the reverse hereof) (each such Stated Maturity Date, Redemption Date or Repayment Date being hereinafter referred to as the "Maturity Date" with respect to the principal repayable on such date) and to pay interest thereon, at the Interest Rate per annum specified above, until the principal hereof is paid or duly made available for payment, and (to the extent that the payment of such interest shall be legally enforceable) at the Default Rate per annum specified above on any overdue principal, premium, if any, and interest, if any. The Company will pay interest in arrears on each Interest Payment Date, if any, specified above (each, an "Interest Payment Date"), commencing with the first Interest Payment Date next succeeding the Original Issue Date specified above, and on the Maturity Date; provided, however, that, if the Original Issue Date occurs between a Record Date (as defined below) and the next succeeding Interest Payment Date, interest payments will commence on the second Interest Payment Date. Interest on this Note will be computed on the basis of a 360-day year of twelve 30-day months.

Interest on this Note will accrue from, and including, the immediately preceding Interest Payment Date to which interest has been or duly provided for (or from, and including, the Original Issue Date if no interest has been paid or duly provided for) to, but excluding, the applicable Interest Payment Date or the Maturity Date, as the case may be (each, an "Interest Payment Period"). The interest so payable, and punctually paid or duly provided for, on any Interest Payment Date will, subject to certain exceptions described herein, be paid to

the person in whose name this Note (or one or more predecessor Notes) registered at the close of business on the fifteenth calendar day (whether or not a Business Day, as defined below) immediately preceding such Interest Payment Date (the "Record Date"); provided, however, that Interest payable on the Maturity Date will be payable to the person to whom the principal hereof and premium, if any, hereon shall be payable. Any such interest not so punctually paid or duly provided for ("Defaulted Interest") will forthwith cease to be payable to the Holder on any Record Date, and shall be paid to the person in whose name this Note is registered at the close of business on a special record date (the "Special Record Date") for the payment of such Defaulted Interest to be fixed by a New York affiliate of the Trustee (the "Issuing and Paying Agent") hereinafter referred to, notice whereof shall be given to the Holder of this Note by the Issuing and Paying Agent not less than 10 calendar days prior to such Special Record Date or may be paid at any time in any other lawful manner not inconsistent with the requirements of any securities exchange on which this Note may be listed, and upon such notice as may be required by such exchange, all as more fully provided for in the Indenture.

Payment of principal, premium, if any, and interest, if any, in respect to this Note due on the Maturity Date will be made in immediately available funds upon presentation and surrender of this Note (and, with respect to any repayment of this Note, a duly completed applicable election form as contemplated on the reverse hereof) at the corporate trust office of the Issuing and Paying Agent, currently The Chase Manhattan Bank, 450 West 33rd Street, 15th Floor, New York, New York 10001, or, if no paying agent is then appointed to act with respect to the Notes under the Indenture, at the corporate trust office of the Trustee maintained for that purpose in the Borough of Manhattan, The City of New York. Payment of interest due on any Interest Payment Date other than the Maturity Date will be made by check mailed to the address of the person entitled thereto as such address shall appear in the Security Register maintained at the aforementioned office of the Paying Agent or, if no paying agent is then appointed to act with respect to the Notes under the Indenture, of the Trustee; provided, however, that a Holder of U.S. \$10,000,000 or more in aggregate principal amount of Notes (whether having identical or different terms and provisions) will be entitled to receive interest payments on such Interest Payment Date by wire transfer of immediately available funds if appropriate wire

transfer instructions have been received in writing by the Issuing and Paying Agent not less than 15 calendar days prior to such Interest Payment Date. Any such wire transfer instructions received by the Issuing and Paying Agent shall remain in effect until revoked by such Holder.

If any Interest Payment Date or the Maturity Date falls on a day that is not a Business Day, the required payment of principal, premium, if any, and interest, if any, shall be made on the next succeeding Business Day with the same force and effect as if made on the date such payment was due, and no interest shall accrue with respect to such payment for the period from and after such Interest Payment Date or the Maturity Date, as the case may be, to the date of such payment on the next succeeding Business Day.

As used herein, "Business Day" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law, regulation or executive order to close in The City of New York.

The Company is obligated to make payments of principal, premium, if any, and interest, if any, in respect of this Note in United States dollars or such other currency as is at the time of such payment legal tender for the payment of public and private debts in the United States of America.

Reference is hereby made to the further provisions of this Note set forth on the reverse hereof and, if so specified on the face hereof, in an Addendum hereto, which further provisions shall have the same force and effect as if set forth on the face hereof.

Notwithstanding the foregoing, if an Addendum is attached hereto or "Other/Additional Provisions" apply to this Note as specified above, this Note shall be subject to the terms set forth in such Addendum or such "Other/Additional Provisions."

Unless the Certificate of Authentication hereon has been executed by the Issuing and Paying Agent by manual signature, this Note shall not be entitled to any benefit under the Indenture or be valid or obligatory for any purpose.

[REVERSE OF NOTE]

HALLIBURTON COMPANY MEDIUM-TERM NOTE (Fixed Rate)

This Note is one of a duly authorized series of Debt Securities (the "Debt Securities") of the Company issued and to be issued under a Second Senior Indenture, dated as of December 1, 1996, as amended, modified or supplemented by the First Supplemental Indenture dated as of December 5, 1996, and as further amended, modified or supplemented from time to time (the "Indenture"), between the Company and Texas Commerce Bank National Association, as Trustee (the "Trustee"), which term includes any successor trustee under the Indenture, to which Indenture and all Indentures supplemental thereto reference is hereby made for a statement of the respective rights, limitations of rights, duties and immunities thereunder of the Company, the Trustee and the Holders of the Debt Securities, and of the terms upon which the Debt Securities are, and are to be, authenticated and delivered. This Note is one of the series of Debt Securities designated as "Medium-Term Notes Due Nine Months or More From Date of Issue, Series A" (the "Notes"). All terms used but not defined in this Note or in an Addendum hereto shall have the meanings assigned to such terms in the Indenture or or on the face hereof, as the case may be.

This Note is issuable only in registered form without coupons in minimum denominations of U.S.\$1,000 and integral multiples thereof or the minimum Authorized Denomination specified on the face hereof.

This Note will not be subject to any sinking fund and, unless otherwise specified on the face hereof in accordance with the provisions of the following two paragraphs, will not be redeemable or repayable prior to the Stated Maturity Date.

This Note will be subject to redemption at the option of the Company on any date on or after the Initial Redemption Date, if any, specified on the face hereof, in whole or from time to time in part, in increments of U.S.\$1,000 (provided that any remaining principal amount hereof shall be at least U.S.\$1,000), at the Redemption Price (as defined below), together with unpaid interest accrued hereon to the date fixed for redemption (each, a "Redemption Date"), on notice given no more than 60 nor less than 30 calendar days prior to the Redemption Date and in accordance with the provisions of the Indenture. The "Redemption Price" shall initially be the Initial Redemption Percentage specified on the face hereof multiplied by the unpaid principal amount of this Note to be redeemed. The Initial Redemption Percentage shall decline at each anniversary of the Initial Redemption Date by the Annual Redemption Percentage Reduction, if any, specified on the face hereof until the Redemption of this Note in part only, a new Note of like tenor for the unredeemed portion hereof and otherwise having the same terms as this Note shall be issued in the name of the Holder hereof upon the presentation and surrender hereof.

This Note will be subject to repayment by the Company at the option of the Holder hereof on the Optional Repayment Date(s), if any, specified on the face hereof, in whole or in part in increments of U.S.\$1,000 (provided that any remaining principal amount hereof shall be at least U.S.\$1,000), at a repayment price equal to 100% of the unpaid principal amount to be repaid, together with unpaid interest accrued thereon to the date fixed for repayment (each, a "Repayment Date"). For this Note to be repaid, this Note must be received, together with the form hereon entitled "Option to Elect Repayment" duly completed, by the Issuing and Paying Agent at its corporate trust office not

more than 60 nor less than 30 calendar days prior to the Repayment Date. Exercise of such repayment option by the Holder hereof will be irrevocable. In the event of repayment of this Note in part only, a new Note of like tenor for the unrepaid portion hereof and otherwise having the same terms as this Note shall be issued in the name of the Holder hereof upon the presentation and surrender hereof.

If this Note is an Original Issue Discount Note as specified on the face hereof, the amount payable to the Holder of this Note in the event of redemption, repayment or acceleration of maturity will be equal to the sum of (1) the Issue Price specified on the face hereof (increased by any accruals of the Discount, as defined below) and, in the event of any redemption of this Note (if applicable, multiplied by the Initial Redemption Percentage (as applicable), multiplied by the Initial Redemption Percentage (as adjusted by the Annual Redemption Percentage Reduction, if applicable) and (2) any unpaid Interest on this Note accrued from the Original Issue Date to the Redemption Date, Repayment Date or date of acceleration of maturity, as the case may be. The difference between the Issue Price and 100% of the principal amount of this Note is referred to herein as the "Discount."

For purposes of determining the amount of Discount that has accrued as of any Redemption Date, Repayment Date or date of acceleration of maturity of this Note, such Discount will be accrued so as to cause the yield on the Note to be constant. The constant yield will be calculated using a 30-day month, 360-day year convention, a compounding period that, except for the Initial Period (as defined below), corresponds to the shortest period between Interest Payment Dates (with ratable accruals within a compounding period) and an assumption that the maturity of this Note will not be accelerated. If the period from the Original Issue Date to the Initial Interest Payment Date (the "Initial Period") is shorter than the compounding period for this Note, a proportionate amount of the yield for an entire compounding period, then such period will be divided into a regular compounding period and a short period, with the short period being treated as provided in the preceding sentence.

If an Event of Default, as defined in the Indenture, shall occur and be continuing, the principal of this Note may be accelerated in the manner and with the effect provided in the Indenture.

The Indenture contains provisions for defeasance of (i) the entire indebtedness of the Notes or (ii) certain covenants and Events of Default with respect to the Notes, in each case upon compliance with certain conditions set forth therein, which provisions apply to the Notes.

The Indenture permits, with certain exceptions as therein provided, the amendment thereof and the modification of the rights and obligations of the Company and the rights of the Holders of the Debt Securities at any time by the Company and the Trustee with the consent of the Holders of not less than a majority of the aggregate principal amount of all Debt Securities at the time outstanding and affected thereby. The Indenture also contains provisions permitting the Holders of not less than a majority of the aggregate principal amount of the outstanding Debt Securities of any series, on behalf of the Holders of all such Debt Securities, to waive compliance by the Company with certain provisions of the Indenture. Furthermore, provisions in the Indenture permit the Holders of not less than a majority of the aggregate principal amount of the outstanding Debt Securities of any series, in certain instances, to waive, on behalf of all of the Holders of Debt Securities of such series, certain past defaults under the Indenture and their consequences. Any such consent or waiver by the Holder of this Note shall be conclusive and binding upon such Holder and upon all future Holders of this Note and other Notes issued upon the registration of transfer hereof or in exchange heretofore or in lieu hereof, whether or not notation of such consent or waiver is made upon this Note.

No reference herein to the Indenture and no provision of this Note or of the Indenture shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay principal, premium, if any, and interest, if any, in respect of this Note at the times, places and rate or formula, and in the coin or currency, herein prescribed.

As provided in the Indenture and subject to certain limitations therein and herein set forth, the transfer of this Note is registrable in the Security Register of the Company upon surrender of this Note for registration of transfer at the office or agency of the Company in any place where the principal hereof and any premium or interest hereon are payable, duly endorsed by, or accompanied by a written instrument of transfer in form satisfactory to the Company and the Security Registrar duly executed by the Holder hereof or by his attorney duly authorized in writing, and thereupon one or more new Notes, of authorized denominations and for the same aggregate principal amount, will be issued to the designated transferee or transferees.

As provided in the Indenture and subject to certain limitations therein and herein set forth, this Note is exchangeable for a like aggregate principal amount of Notes of different authorized denominations but otherwise having the same terms and conditions, as requested by the Holder hereof surrendering the same.

No service charge shall be made for any such registration of transfer or exchange, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith.

Prior to due presentment of this Note for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the Holder in whose name this Note is registered as the owner hereof for all purposes, whether or not this Note be overdue, and neither the Company, the Trustee nor any such agent shall be affected by notice to the contrary.

The Indenture and this Note shall be governed by and construed in accordance with the laws of the State of New York applicable to agreements made and to be performed entirely in such State.
