Report of Independent Registered Public Accounting Firm

To: KBR Benefits Committee
KBR Audit Committee

We have audited the accompanying statements of net assets available for benefits of the Kellogg Brown & Root, Inc. Retirement and Savings Plan (the Plan) as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in its net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

As further described in Note (2), the Plan adopted Financial Accounting Standards Board Staff Position AAG INV-1 and SOP 94-4-1 for the years ended December 31, 2006 and 2005.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

(1) Description of the Plan

The Kellogg Brown & Root, Inc. Retirement and Savings Plan (the Plan) is a defined contribution plan for certain qualified employees of certain subsidiaries of Halliburton Company (Halliburton). The Plan is sponsored by Kellogg Brown & Root, LLC, formerly Kellogg Brown and Root, Inc., (the Company), a subsidiary of Halliburton. The Plan was established in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions.

(a) Eligibility

Certain employees of the Company are eligible for immediate participation in the Plan upon their date of hire.

(b) Contributions

Participants may elect to contribute to the tax deferred savings and/or after-tax features of the Plan through periodic payroll deductions. These contributions are limited to an aggregate of 50% of the participant's eligible earnings up to \$220,000 and \$210,000 for 2006 and 2005, respectively. The total amount of participant tax deferred savings contribution is limited to \$15,000 and \$14,000 for 2006 and 2005, respectively. Any contributions in excess of these limits are automatically made to the participant's after-tax account. Additional limitations are in place for highly compensated employees under the provisions of the Plan.

Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution, (\$5,000 and \$4,000 per participant in 2006 and 2005, respectively). Catch-up contributions are treated as Tax Deferred Savings Contributions for all purposes of the Plan. However, catch-up contributions shall not be considered for purposes of determining the amount of Employer Matching Contributions to be made to the Plan on the participant's behalf. Catch-up contributions are not subject to the 50% of compensation limitation, but instead, when aggregated with other Tax Deferred Savings Contributions, cannot exceed 75% of a Participant's compensation, the annual dollar limit, or the actual percentage restriction. Catch-up contributions exceeding limitations of the Plan are distributed to the participant by April 15 of the following Plan year.

Effective January 1, 2006, the Plan was amended to increase the Company matching contributions to 100% of the first 3% and 50% of up to the next 5%. In 2005, the Company matched 100% of the tax deferred savings contribution (other than catch-up contributions) that were not in excess of 3% of eligible earnings and 50% of the tax deferred savings contribution (other than catch-up contributions) that were not in excess of up to an additional 3% of eligible earnings.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

In 2005, the Company contributed an annual non-elective contribution of 1% of eligible compensation on behalf of each eligible employee, regardless of individual participation in the Plan. The annual contribution was in addition to the Company match that participating employees received. To be eligible to receive the contribution for the 2005 Plan year, an employee must have been employed by the Company as of December 31, 2005. Exceptions to this eligibility rule included retirees, employees on long term disability, and those employees whose death occurred while in service. The Company no longer makes annual non-elective contributions for plan years ending after December 31, 2005.

The employer can also make an additional discretionary contribution. For the Plan year 2005, the Company did make a discretionary retirement allocation contribution in the form of a match optimization. Effective January 1, 2006, the Company no longer makes employer discretionary contributions.

Employees are permitted to roll over pre-tax and after-tax amounts with earnings held in other qualified Plans or individual retirement accounts (IRAs) into the Plan, as specified in the Plan document.

(c) Plan Accounts

The Company has entered into a master trust agreement known as the Halliburton Company Employee Benefit Master Trust (the Master Trust). The Master Trust was established for the collective investment of certain defined contribution and defined benefit Plans sponsored by Halliburton or its affiliates. The Plan maintains a clearing account, which invests in a short term investment fund to facilitate the payment of benefits and receipt of contributions to the Plan.

(d) Investment Elections and Transfers

Contributions and participant account balances may be directed to one of thirteen funds or a combination of funds. The assets of the funds are held in the Master Trust (see note 3). Participants may direct up to a maximum of 15 percent of their contributions to the Halliburton Stock Fund (HSF).

The Plan allows participants to make daily transfers of their account balances among the funds. The amount of the transfer may be all or any portion of the participant's account balance. The Plan imposes a fifteen calendar-day waiting period on transfers involving the Non-U.S. Equity Fund.

(e) Administration

During February 2006, the KBR Benefits Committee was created solely to control and manage the operation and administration of the Plan. Prior to that time the Halliburton Benefits Committee maintained all control, management, and administration of the Plan. The Halliburton Company Investments Committee maintained all powers and duties related to the Plan's investment fund or funds until such time assets were fully transferred to the KBR Master Trust (see note 8).

State Street Bank and Trust Company (State Street or the Trustee) is the Plan's trustee, and Hewitt Associates LLC is the record keeper.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

(f) Participant Loans

A participant may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by the highest outstanding loan balance in all Company sponsored Plans in the prior twelve months) or 50% of their vested account balance. A participant may not have more than one loan outstanding at any time, except for certain loans transferred from the Halliburton Retirement and Savings Plan, in which case a participant may have had up to two loans outstanding. Loans bear interest at the current prime rate plus 1% as published in the Wall Street Journal. Loans must be repaid within five years (10 years for primary residence loan) through payroll deductions and are collateralized by the participant's vested account balance. If a participant fails to comply with the repayment terms of the loan, the Committee or its designee may deem such defaulted loans as a distribution when the loans are considered uncollectible from the participant.

(g) Vesting

Participants' contributions to their accounts and the earnings thereon are fully vested when made or earned. Participants who were employed by the Company on December 31, 1998, and who had a balance transferred from the Halliburton Retirement and Savings Plan, are fully vested in all Company matching and discretionary retirement allocation contributions. Participants hired after December 31, 1998 but prior to January 1, 2004 are fully vested in all Company matching and discretionary retirement allocation contributions after completing one year of service. Effective January 1, 2004, participants will immediately vest in their Company matching contributions upon completing one hour of service. Participants become fully vested in the nonelective contribution after completing three years of service.

Effective January 1, 2006, the non-vested portion of a participant's account is forfeited as of his Benefit Commencement Date, as defined in the Plan. For 2005, the non-vested portion of a participant's account was forfeited at the end of the fifth year following termination unless the participant is rehired within five years of termination.

Forfeitures are used to reduce Company matching contributions. Forfeitures available as of December 31, 2006 and 2005 were \$63,844 and \$161,787 respectively. Forfeitures of \$382,454 and \$37,208 in 2006 and 2005, respectively, were used to offset Company contributions.

(h) Distributions

Each participant, or their designated beneficiary, may elect to receive a distribution upon retirement, termination, disability, or death. Direct rollovers to an IRA or other qualified Plan are permitted. All termination distributions are made in lump-sum amounts. Periodic installments are also available to participants who retire, or become disabled, at the participant's election. Certain joint and survivor annuities are available upon election to participants who had a balance under the Halliburton Retirement and Savings Plan prior to June 1998 that was transferred to the Plan, as provided under the terms of the Plan. Distributions from the HSF may be made in the form of shares of stock or cash.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

While employed, a participant may make in-service withdrawals from their after-tax accounts as defined in the Plan document. In-service withdrawals from their tax-deferred savings are also permitted upon attainment of age 59-1/2 or proven financial hardship, subject to limitations under the Plan.

Certain additional in-service withdrawals are permitted from account balances transferred from the Halliburton Retirement and Savings Plan, as defined in the Plan document.

(i) Investment Earnings

Investment earnings on participants' accounts are allocated proportionately based on their relative account balance in each investment fund.

(j) Halliburton Stock Fund

The HSF is an Employee Stock Ownership Plan (ESOP). The ESOP is designed to comply with Section 4975(e)(7) of the IRC and Section 407(d)(6) of ERISA.

The ESOP has a dividend pass-through election whereby any cash dividends attributable to Halliburton Company common stock held by the ESOP are to be paid by Halliburton directly to the Trustee.

Each participant is entitled to exercise voting rights attributable to the Halliburton Company common stock allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have been given by a participant. The Trustee is required, however, to vote at its discretion, all shares which have not been voted by Plan participants and beneficiaries.

(k) Plan Termination

The Board of Directors of Halliburton may amend, modify, or terminate the Plan at any time. No such termination is contemplated, but if it should occur, the accounts of all participants would be immediately fully vested and paid in accordance with the terms of the Plan (see note 9).

RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

(2) Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared in conformity using the accrual basis of accounting. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Halliburton Company Employee Benefit Master Trust. The statements of net assets available for benefits present the fair value of the investment in the master trust as well as the adjustment of the investment in the master trust from fair value to contract value relating to investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

The Plan has adopted the financial statement presentation and disclosure requirements effective December 31, 2006 and retroactively restated the statement of net assets for the periods presented. The effect of adopting the FSP had no impact on net assets which have been historically presented at contract value.

(b) Valuation of Investments

Participant loans, which are held by the Trustee outside of the Master Trust, are valued at cost which approximates fair value.

Cash equivalents, derivative financial instruments, stock securities, mutual funds, bonds and notes, and all other debt securities held within the Master Trust are presented at their quoted market values. Common/collective trust funds are stated at the fair market value of the underlying securities. The Master Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

The Master Trust's investment in the Pooled Equity Fund and Pooled Fixed Income Fund represents the unitized values of certain pooled managers' accounts on a combined basis. Each pooled manager's account is valued daily. A unit price is calculated for each pooled manager by dividing the total value of the manager's account by the total number of units in existence for that manager. Net income and realized/unrealized investment gains and losses by each manager are passed through to the investment options through the managers' unit price.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

The Stable Value Premixed Portfolio within the Master Trust invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: 1) a portfolio of securities or underlying assets and 2) a wrap contract. These underlying assets, generally fixed income securities, are held by an independent trustee for the sole benefit of the Fund and a wrap contract is entered into for a fee with a financial institution to assure contract value liquidity for Plan participant directed withdrawals, transfers or loans. The issuer of the contract (wrap provider) undertakes to repay the principal amount deposited pursuant to the contract plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities. The contract rate is reset periodically by wrap providers and cannot be less than zero.

The net weighted average yield earned, which is different from the interest rate credited to participants, by the entire fund for 2006 was 2.28% and for 2005 was 1.99%. The net weighted interest rate credited to participants in the fund for 2006 was 5.03% and for 2005 was 4.79%.

All of the asset-backed contracts held by the Fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the Fund in the event of a termination or a non-participant directed withdrawal, transfer or loan. The risk of this event happening is possible but not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider or the Fund is unable to meet the terms of the contract.

The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in the Master Trust (see note 3).

(c) *Securities Transactions and Investment Income*

The Plan records interest on cash and cash equivalents and participant loans held outside of the Master Trust as earned. Purchases and sales of securities held outside the Master Trust are recorded on the trade-date basis.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Realized gains (losses) on investments sold and unrealized appreciation (depreciation) for investments of the Master Trust are combined and presented as Plan interest in Master Trust investment gain in the statements of changes in net assets available for benefits.

In addition, investment income of the Master Trust includes dividends, interest, and other income. Interest income of the Master Trust investments is recorded as earned. Dividends on the Master Trust investments are recorded on the ex-dividend date.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

(d) Administrative Expenses

The Master Trust pays substantially all Plan expenses on behalf of the Plan. Generally, trustee fees, recordkeeping fees, audit fees, and investment management fees are paid from Master Trust assets and are charged to the Plans participating in the Master Trust. Expenses related to the direct management of the Master Trust are shared on an equitable basis by the participating Plans. Expenses specifically related to an individual Plan are charged to the assets of the Plan which incurred the charges. These expenses are shown as a component of Plan interest in Master Trust investment gain.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(g) Risk and Uncertainties

The investments of the Master Trust are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term.

(3) Investment Assets Held in the Master Trust

Certain assets of the Plan are combined with the assets of certain other benefit Plans of affiliated companies in the Master Trust. The assets of the Master Trust are segregated into thirteen funds in which the Plans may participate. The combination of the Plans' assets is only for investment purposes and the Plans continue to be operated under their current Plan documents, as amended.

The following is a summary of net assets as of December 31, 2006 and 2005 and net investment activity for the years ended December 31, 2006 and 2005 of the Master Trust and net appreciation by investment type for the years ended December 31, 2006 and 2005. The Plan's interest in the Master Trust's net assets for the applicable periods is also presented.

KELLOGG BROWN & ROOT, INC.
RETIREMENT AND SAVINGS PLAN
Notes to Financial Statements
December 31, 2006 and 2005

The Master Trust makes use of several investment strategies involving limited use of derivative investments. The Master Trust's management, as a matter of policy and with risk management as their primary objective, monitors risk indicators such as duration and counter-party credit risk, both for the derivatives themselves and for the investment portfolios holding the derivatives. Investment managers are allowed to use derivatives for strategies such as portfolio structuring, return enhancement, and hedging against deterioration of investment holdings from market and interest rate changes. Derivatives are also used as a hedge against foreign currency fluctuations. The Investment Committee does not allow investment managers for the Master Trust to use leveraging for any investment purchase. Derivative investments are stated at estimated fair market values as determined by quoted market prices. Gains and losses on such investments are included in net investment appreciation in the statements of changes in participating Plans' net assets of the Master Trust.

Certain investment managers of the Master Trust participate in a securities lending program administered by State Street. The transfer of assets under State Street's securities lending program are secured borrowings with pledge of collateral. The fair market value of the securities loaned as of December 31, 2006 and 2005 was \$623,872,552 and \$521,786,769, respectively. The cash and non-cash collateral received for securities loaned as of December 31, 2006 and 2005 was \$633,836,151 and \$532,223,051, respectively. As of December 31, 2006 and 2005, none of the collateral received for securities loaned has been sold or repledged.

(4) Investments

The following table represents the fair value of individual investment funds held under the Master Trust which exceed 5% of the Plan's net assets as of December 31, 2006 and 2005:

	2006	2005
Participation in Master Trust, at fair value:		
Stable Value Premixed Portfolio	\$ 509,576,575	\$ 523,355,669
Aggressive Premixed Portfolio	113,282,779	86,767,419
Moderate Premixed Portfolio	211,345,243	192,804,204
Balanced Fund	104,302,423	91,466,994
Halliburton Stock Fund	68,105,765*	76,964,830
S&P 500 Index Fund	136,083,626	135,449,800
Large Capital Value Equity Fund	90,403,696	77,355,075
Non-U.S. Equity Fund	96,698,618	53,739,098*

* Amount shown for comparative purposes.

Notes to Financial Statements
December 31, 2006 and 2005

(5) Tax Status

The Company has not yet received a determination letter from the Internal Revenue Service (IRS) indicating that the Plan and related trust are designed in accordance with the applicable provisions of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of December 31, 2006 and 2005.

(6) Related-Party Transactions

The Plan, through its participation in the Master Trust, may invest in investment securities issued and or managed by the Trustee and asset managers. Additionally, the Master Trust invests in Halliburton Company's common stock through the HSF. The Plan also contains participant loans. These entities and participant loans are considered parties-in-interest to the Plan. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

(7) Transfer to Other Plan

Effective April 30, 2006, as a result of the sale of certain assets of Kellogg Brown and Root, Ltd. to Production Services Network (PSN), the accounts of participants transferring to PSN were spun off. The total transferred to PSN's Defined Contribution Plan on May 24, 2006 was \$19,054,147.

(8) Separation of KBR from Halliburton

KBR, Inc.(KBR) and all subsidiaries separated from Halliburton by means of a split-off exchange offer on April 5, 2007. The separation was initiated on November 21, 2006 through an initial public offering (IPO) of less than 20% of KBR common stock. During the first quarter of 2007 Halliburton extended an offer to its shareholders to exchange shares of Halliburton common stock for shares of KBR. The split-off exchange offer resulted in the disposal of Halliburton's remaining interest in KBR. Plan assets were transferred from the Halliburton Employee Benefit Master Trust into the KBR Employee Benefit Master Trust in February 2007.

The separation of KBR from Halliburton initiated a change in the duties of the Investment Committee and change from the Halliburton Investment Committee to the KBR Investment Committee upon the transfer of plan assets to the KBR Employee Benefit Master Trust in February, 2007. The United States Trust Company is the Independent Stock Fund Fiduciary and is charged with the responsibilities for management of the KBR Stock Funds.

(9) Subsequent Events

Effective January 1, 2007, the ESOP is no longer offered for the investment of contributions allocated to participants' accounts. Beginning January 1, 2007 through December 13, 2007 a participant may transfer funds from the ESOP account to non-ESOP accounts, but no election can be made to invest in the ESOP account. Any designation to the Halliburton Stock fund as of December 27, 2006 will be deemed to have designated instead that future contributions be invested in the Moderate Premixed Investment Portfolio Fund under non-ESOP accounts, until such time the participant designates other funds for future contributions. The KBR Stock fund was created in April, 2007 as part of the separation from Halliburton, however no participant was able to designate an investment to the KBR Stock fund. Effective December 14, 2007, the Halliburton Stock Fund and the KBR Stock Fund will be eliminated.

Effective April 5, 2007, the Board of Directors of KBR or other individuals as specified in the Plan may amend, modify, or terminate the Plan at any time. No such termination is contemplated, but if it should occur, the accounts of all participants would be immediately fully vested and paid in accordance with the terms of the Plan.
