Report of Independent Registered Public Accounting Firm

To the Halliburton Company
Benefits Committee:

We have audited the accompanying statements of net assets available for plan benefits of the Halliburton Savings Plan (the Plan) as of December 31, 2003 and 2002 and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2003. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2003 and 2002 and the changes in its net assets available for plan benefits for the year ended December 31, 2003, in conformity with U.S. generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2003 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements
December 31, 2003 and 2002

(1) Description of the Plan

The Halliburton Savings Plan (the Plan) is a defined contribution plan for certain qualified employees of Halliburton Company and certain subsidiaries (the Company). The Plan was established in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective January 1, 2002, the Plan was amended and restated to comply with the rules and regulations contained in the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). The following description of the Plan provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions.

(a) Eligibility

Certain employees of the Company are eligible for participation in the Plan upon completion of three months of service. The Company has specifically extended participation to certain employees covered by a collective bargaining agreement.

(b) Contributions

Participants may elect to contribute to the tax deferred savings and/or after tax features of the Plan through periodic payroll deductions. These contributions are limited to an aggregate of 25% of the participant's eligible earnings of up to \$200,000; the total amount of participant tax deferred savings contributions is limited to \$12,000 for 2003. Any contributions in excess of the \$12,000 limit are automatically made to the participant's after-tax account. The Company makes matching contributions to certain groups of participants based on separate formulas set forth in the plan document.

Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution, subject to certain limitations under the IRC (\$2,000 per participant in 2003).

Employees are permitted to rollover pre-tax and after-tax amounts with earnings held in other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the Plan document.

(c) Plan Accounts

The Company has entered into a master trust agreement known as the Halliburton Company Employee Benefit Master Trust (the Master Trust). The Master Trust was established for the collective investment of certain defined contribution and defined benefit plans sponsored by the Company or its affiliates. The Plan maintains a clearing account, which invests in a short term investment fund to facilitate the payment of benefits and receipt of contributions to the Plan.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements

December 31, 2003 and 2002

(d) Investment Elections and Transfers

Contributions and participant account balances may be directed to one of eleven funds or a combination of funds. The assets of the funds are held in the Master Trust (see note 3). Participants may direct up to a maximum of 15 percent of their contributions to the Halliburton Stock Fund (HSF).

The Plan allows participants to make daily transfers of their account balances among the funds. The amount of the transfer may be all or any portion of the participant's account balance. The Plan imposes a fifteen calendar-day waiting period on transfers involving the Non-U.S. Equity Fund.

(e) Administration

The Halliburton Company Benefits Committee (the Committee) controls and manages the operation and administration of the Plan. State Street Bank and Trust Company (State Street) is the Plan's trustee, and Hewitt Associates LLC is the recordkeeper.

(f) Participant Loans

A participant may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by the highest outstanding loan balance in all Company sponsored plans in the prior twelve months) or 50% of their vested account balance. A participant may not have more than one loan outstanding at any time. Prior to January 1, 2002, a participant could have had up to two loans outstanding at any time. Loans bear interest at the current prime rate, plus 1% as published in the Wall Street Journal. Loans must be repaid within five years (ten years for primary residence loans) through payroll deductions. Loans are collateralized by the participant's account balance. If a participant fails to comply with the repayment terms of the loan, the Committee or its designee may deem such defaulted loans as a distribution when the loans are considered uncollectible from the participant.

(g) Vesting

Participants' contributions to their accounts and the earnings thereon are fully vested when made or earned. Participants become fully vested in matching contributions and the earnings thereon upon the completion of the service requirements as specified in the Plan document and collective bargaining agreement, as applicable. There are special vesting rights for certain balances transferred from acquired company plans as defined in the Plan. Participants who terminate before becoming vested forfeit the nonvested portion of their account balance in accordance with the terms of the Plan and collective bargaining agreement, as applicable.

Forfeitures are used to reduce future Company matching contributions. The forfeiture amounts that were used to reduce Company contributions were \$7,376 for the year ended December 31, 2003. Forfeitures available to reduce future company matching contributions are \$15,670 and \$17,446 as of December 31, 2003 and 2002, respectively.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements

December 31, 2003 and 2002

(h) Distributions

Each participant or their designated beneficiary, may elect to receive a distribution upon retirement, termination, disability, or death. Direct rollovers to an IRA or other qualified plans are permitted. All distributions are made in lump-sum amounts or in periodic installments, at the participant's election. Distributions from the HSF may be in the form of shares of stock or cash.

While employed, a participant may make in-service withdrawals from their after-tax accounts as defined in the Plan document. In-service withdrawals are also permitted upon attainment of age 59-1/2 or proven financial hardship, subject to limitations under the Plan. Certain additional in-service withdrawals are permitted for account balances transferred from acquired company plans as defined in the Plan document.

(i) Investment Earnings

Investment earnings on participants' accounts are allocated proportionately based on their relative account balance in each investment fund.

(j) Halliburton Stock Fund

Effective July 1, 2002, the HSF was converted into an Employee Stock Ownership Plan (ESOP). The ESOP is designed to comply with Section 4975(e)(7) of the Internal Revenue Code and Section 407(d)(6) of ERISA.

The ESOP has a dividend pass-through election whereby any cash dividends attributable to Halliburton Company Common Stock held by the ESOP are to be paid by the Company directly to the Trustee. Any cash dividends received by the Trustee which are attributable to financed stock are to be used by the Trustee to make exempt loan payments until the exempt loan has been repaid in full.

The ESOP has a put option allowing the former participant or designated beneficiary, when the shares of Halliburton Company Common Stock are distributed to him, the option to sell the shares of Halliburton Company Common Stock to the Company. The put option extends for a period of sixty days following the date the shares of Halliburton Company Common Stock are distributed to the former participant or designated beneficiary.

Each participant is entitled to exercise voting rights attributable to the Halliburton Company Common Stock allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of the Plan participants and beneficiaries.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements

December 31, 2003 and 2002

(k) Plan Termination

The Board of Directors of the Company may amend, modify, or terminate the Plan at any time. No such termination is contemplated, but if it should occur, the accounts of all participants would be immediately fully vested and paid in accordance with the terms of the Plan.

(2) Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Certain prior year reclassifications have been made to conform to current year presentation.

(b) Valuation of Investments

The Plan invests in cash and cash equivalents and participants loans, which are held by the Trustee outside of the Master Trust. Cash and cash equivalents are a short term investment fund which is valued at cost which approximates fair value. Participant loans are valued at cost, which approximates fair value.

Cash equivalents, derivative financial instruments, stock securities, mutual funds, bonds and notes, and all other debt securities held within the Master Trust are presented at their quoted market value. Common/collective trust funds are stated at the fair market value of the underlying securities.

Real estate related investments of the Master Trust consist of real estate mortgages and investments in real estate investment trusts (REITs). Real estate mortgages are stated at cost plus accrued interest, less payments received. Investments in REITs are stated at fair value.

The Master Trust's investment in pooled equity managers (the Pooled Fund) represents the unitized values of certain equity managers' accounts on a combined basis. Each manager's account is valued daily. A unit price is calculated for each manager by dividing the total value of the manager's account by the total number of units in existence for that manager. Net income and realized/unrealized investment gains and losses by each manager are passed through to the investment options through the managers' unit price.

HALLIBURTON SAVINGS PLAN
Notes to Financial Statements
December 31, 2003 and 2002

The Fixed Income Fund within the Master Trust holds bank, insurance, and investment contracts providing a fully benefit-responsive feature. These investments are stated at contract value, which approximates fair value. Where the Master Trust owns the underlying securities of asset-backed investment contracts, the contracts are stated at fair market value of the underlying securities plus an adjustment for the difference between fair market value of the underlying securities and contract value. Contract value represents the principal balance of the investment plus accrued interest at the stated contract rate, less payments received, and contract charges by the insurance company or bank. The weighted average crediting interest rates for these contracts is 4.90% and 5.38% as of December 31, 2003 and 2002, respectively, and the weighted average yield was 5.02% for the year ended December 31, 2003. In addition, the Fixed Income Fund holds a common/collective trust fund, which also invests in investment contracts and asset-backed investment contracts. The yield for the common/collective trust fund is 4.54% and 5.67% for the years ended December 31, 2003 and 2002, respectively.

The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for plan benefits as Plan interest in the Master Trust (see note 3).

(c) Securities Transactions and Investment Income

The Plan records interest on cash and cash equivalents and participant loans held outside of the Master Trust as earned. Purchases and sales of securities held outside the Master Trust are recorded on the trade-date basis.

Purchases and sales of securities in the Master Trust are recorded on the trade-date basis. Realized gains (losses) on investments sold and unrealized appreciation (depreciation) for investments are combined and presented as net appreciation (depreciation) for the Master Trust.

In addition, investment income of the Master Trust includes interest, dividends, and other income. Interest income of the Master Trust investments is recorded as earned. Dividends on the Master Trust investments are recorded on the ex-dividend date.

(d) Administrative Expenses

The Master Trust pays substantially all plan expenses on behalf of the Plan. Generally, trustee fees, recordkeeping fees, audit fees, and investment management fees are paid from Master Trust assets and are charged to the plans participating in the Master Trust. Expenses related to the direct management of the Master Trust are shared on an equitable basis by the participating plans. Expenses specifically related to an individual plan are charged to the assets of the Plan which incurred the charges. These expenses are shown as a component of Plan interest in Master Trust investment gain.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements

December 31, 2003 and 2002

(3) Investment Assets Held in the Master Trust

Certain assets of the Plan are combined with the assets of certain other benefit plans of affiliated companies in the Master Trust. The assets of the Master Trust are segregated into eleven funds in which the plans may participate. The combination of the plans' assets is only for investment purposes, and the plans continue to be operated under their current plan documents, as amended.

The following is a summary of net assets as of December 31, 2003 and 2002, total investment income (loss) for the year ended December 31, 2003 and net appreciation (depreciation) by investment type for the year ended December 31, 2003 of the Master Trust (dollar amounts in thousands). The Plan's interest in the Master Trust's net assets for the applicable periods (dollar amounts in thousands) are also presented.

Total appreciation	\$	528,287

The Master Trust makes use of several investment strategies involving limited use of derivative investments. The Master Trust's management, as a matter of policy and with risk management as their primary objective, monitors risk indicators such as duration and counter-party credit risk, both for the derivatives themselves and for the investment portfolios holding the derivatives. Investment managers are allowed to use derivatives for such strategies as portfolio structuring, return enhancement, and hedging against deterioration of investment holdings from market and interest rate changes. Derivatives are also used as a hedge against foreign currency fluctuations. The Master Trust's management does not allow investment managers for the Master Trust to use leveraging for any investment purchase. Derivative investments are stated at estimated fair market values as determined by quoted market prices. Gains and losses on such investments are included in the net appreciation (depreciation) of the Master Trust.

HALLIBURTON SAVINGS PLAN

Notes to Financial Statements

December 31, 2003 and 2002

Certain investment managers of the Master Trust participate in a securities lending program administered by State Street. The transfer of assets under State Street's securities lending program are secured borrowings with pledge of collateral. The fair market value of the securities loaned as of December 31, 2003 and 2002 was \$600,407,471 and \$354,122,960 respectively. The cash and non-cash collateral received for securities loaned as of December 31, 2003 and 2002 was \$613,397,374 and \$364,226,122 respectively. As of December 31, 2003 and 2002 none of the collateral received for securities loaned has been sold or repledged.

(4) Investments

The following table represents the fair value of individual investment funds held under the Master Trust which exceed 5% of the Plan's net assets as of December 31, 2003 and 2002:

	2003	2002
Participation in Master Trust, at fair value:		
S&P 500 Index Fund	\$ 290,418	\$ 203,197
Fixed Investment Fund	292,481	350,142
Balanced Fund	302,194	239,525
Halliburton Company Stock Fund	596,708	432,427
Large Cap Value Equity	937,298	707,031

(5) Tax Status

The Internal Revenue Service (IRS) informed the Company by a letter dated March 4, 2004 that the Plan and related trust were designed in accordance with the applicable provisions of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of December 31, 2003 and 2002.

(6) Related-Party Transactions

The Plan, through its participation in the Master Trust, may invest in investment securities issued and or managed by the Trustee and asset managers. Additionally, the Master Trust invests in Halliburton Company's common stock through the HSF. These entities are considered parties-in-interest to the Plan. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.
