**Item 1.01. Entry into a Material Definitive Agreement.**

On September 2, 2014, Halliburton Company and Halliburton Energy Services, Inc. (collectively, "Halliburton") entered into the HESI Punitive Damages and Assigned Claims Settlement Agreement with counsel for The Plaintiffs Steering Committee in MDL 2179 and the Deepwater Horizon Economic and Property Damages Settlement Class to settle a substantial majority of the plaintiffs' class claims asserted against Halliburton as a result of the April 20, 2010 Macondo well incident in the Gulf of Mexico. The approximately \$1.1 billion settlement, which includes legal fees, is subject to approval by the United States District Court for the Eastern District of Louisiana, and will be paid into a trust until all appeals have been resolved in three installments over the next two years.

The agreement provides for the following:

- The settlement of all claims against Halliburton that BP assigned to the settlement class in BP's April 2012 settlement relating to the Macondo well incident,

- The settlement of all claims for punitive damages against Halliburton by a class of plaintiffs who allege damages to property or associated with the commercial fishing industry arising from the Macondo well incident, and
- Affirmation that Halliburton has no liability for compensatory damages to the members of the settlement class in the BP April 2012 settlement.

Pursuant to the agreement, payments will be held in the trust, pending the finalization of the settlement which is contingent on final court approval, including any appeals of:

- The BP April 2012 settlement with the settlement class,
- The District Court's earlier determination that the contractual indemnity provided by BP to Halliburton is valid and enforceable, and
- The District Court's earlier dismissal of economic damage claims against Halliburton.

Additionally, the settlement is subject to an agreed-upon level of participation by the current claimants which, if not achieved, allows Halliburton to terminate the agreement.
